

Select Acid Wheel Cleaner

Description:

A ready-to-use, VOC compliant, phosphate-free, acid wheel cleaner formulated to safely remove brake dust and heavy road film from most wheel types.

Cleaning Strength:

Part Number(s):

593633

Specifications:

VOC Compliant
Body Shop Safe
Phosphate Free
NPE Free
Water Based
Ready-to-Use

Characteristics

Function:	Remove heavy dirt, grease, road film, brake dust and oxidation
Surfaces:	Metal, coated and plastic wheels
pH:	1
Formulation:	Water-based solution containing acid
Corrosiveness:	High (acidic)
Color:	Colorless
Fragrance:	Unscented

Key Benefits

- Cleans and brightens wheels without excessive scrubbing
- Quickly removes brake dust and road film, reducing labor costs
- Heavy duty product that can be safely used on most wheel types
- **DO NOT USE on: PVD, polished uncoated aluminum or anodized wheels.**

How to use

- 1 Use product undiluted or dilute 1:1.
- 2 For best results, wet wheel and surrounding areas to cool surface before applying product.
- 3 Spray product directly on wheel and let dwell for 30 seconds
- 4 Agitate product on wheel with spoke brush, if necessary.
- 5 Thoroughly pressure rinse wheel and surrounding surfaces.
- 6 When cleaning the tire, also apply Exterior Cleaner / Degreaser or Non-Acid Wheel Cleaner to the wheel to neutralize any traces of acid that remain.

DO NOT USE on: PVD, polished uncoated aluminum or anodized wheels.
