

Select Non-Acid Wheel & Tire Cleaner

Description:

A concentrated, VOC compliant, acid-free cleaner formulated to safely remove a wide variety of surface contaminants from wheels and tires. Great for use on all wheel types including PVD.

Cleaning Strength:

Part Number(s):

594147

Specifications:

VOC Compliant
Body Shop Safe
Phosphate Free
NPE Free
Water Based
Concentrated

Characteristics

Function:	Remove heavy dirt, grease, road film, brake dust and scuff marks
Surfaces:	Wheels & tires
pH:	> 13
Formulation:	Water-based solution
Corrosiveness:	High (caustic)
Color:	Brown
Fragrance:	Unscented

Key Benefits

- Safe for use on all wheel types including PVD
- Non-acid product that safely cleans wheels and tires in one step
- Extremely effective in removing brake dust from alloy and clearcoated wheels
- Quickly cleans tires and brightens whitewalls
- Contains alkalis and surfactants which loosen stubborn dirt and grime

How to use

- 1 Dilute one part product with 4 parts water (1:4).
- 2 For best results, wet wheel and surrounding areas to cool surface before applying product.
- 3 Spray product directly on both wheel and tire.
- 4 Agitate product on wheel with spoke brush, if necessary. NOTE: Use only a soft wash mitt when cleaning PVD wheels.
- 5 Agitate product on tire with stiff bristled brush.
- 6 Thoroughly pressure rinse wheels, tires and surrounding surfaces.

CLEANING PVD Wheels:

When cleaning PVD wheels, always use acid-free products. For best results, use a wash mitt or [Wheel Woolie](#). To prevent dulling the finish, avoid using traditional stiff bristle brushes.
